

REMARKS

I. Status of the Claims

Claims 1-6 are pending.

Claim 1 stands rejected.

Claims 2-6 have been objected to.

Claims 1-2 have been amended.

No new matter has been added.

II. Status of the Specification and Drawings

The drawings were objected to by the Examiner as failing to comply with 37 C.F.R. 1.84(p)(5) because they included reference characters that were not mentioned in the specification. Applicant respectfully submits that the specification has been amended to include the appropriate reference numerals. No new matter has been added as a result of the amendment to the specification. Accordingly, Applicant respectfully requests that the objection to the drawings be withdrawn.

III. Acknowledgement of Allowable Subject Matter

Applicant would like to thank the Examiner for the acknowledgement of allowable subject matter in claims 2-6.

IV. Rejections Under 35 U.S.C. § 102(b)

Claim 1 has been rejected under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent Number 5,806,877 to Huang ("Huang"). The Examiner states that Huang discloses a stroller having all of the features of the claimed invention.

Applicant has amended claim 1 to include an element from the subject matter of allowable claim 2. Applicant submits that claim 1 is not anticipated by Huang. In particular, Huang does not disclose a stroller having "an urging unit that is sleeved around said pivot pin unit so as to constantly urge said positioning base in a downward direction and so as to prevent undesired disengagement between said first and second engaging units." Accordingly, Applicant respectfully requests that this rejection be withdrawn.

V. Conclusion

In view of the above amendment, Applicant believes the pending application is in condition for allowance.
